WALLAN 3756

Dear Travis,

Re: Baseball Diamond - Prince of Wales Park Ballarat

On behalf of the Board of the Ballarat Baseball Association and the {resident and committee of the Ballarat City Baseball Club I thank you and your team for the work done to date on the new all weather diamond at Prince of Wales Park.

Despite recent adverse weather conditions the project has been on target for completion and the work, in our opinion, has been of high quality. More important perhaps has been the open communication channels between yourself and both the Association Board and the Club committee.

We are looking forward to completion of the project in the near future and, of course, the opportunity to play on a diamond that will be the envy of all Victorian regional Associations and metropolitan Clubs.

Kind regards

*Jeff Clack*
